OREGON SCHOOL DISTRICTS

This list gives information for Oregon school districts as they were organized on June 30, 1987. In Part I, districts are arranged alphabetically statewide. In Part II, districts are arranged in numerical order by county.

Letter designations in Part I indicate district organization.

U----- a unified district which operates grades 1 through 12.

Ue---- a unified district which operates only grades 1 through 8. Secondary students attend a high school in another district on a district-paid tuition basis.

E----- an elementary district which operates grades 1 through 8 or 1 through 6.

Some districts have a unified (U or Ue) portion and an elementary portion . Students attend the same elementary school, but may attend different high schools depending upon which part of the district they live in.

UH---- A union high school district which operates grades 9 through 12 for students from component elementary districts.

Some union high school districts operate grades 7 through 12. Component elementary districts thus operate grades 1 through 6. Elementary and union high school districts organized this way are marked with an asterisk.

Elementary district or parts of districts which comprise a union high school district are shown in Part II.

Special designations are:

J----- a joint district with territory in two or more counties. Joint portions are listed in Part II beside joint district listings.

Susp-- a suspended district which does not operate schools, but sends its students to another district's school on a distict-paid tuition basis.

A----- a unified district organized administratively under ORS 330.505 at 330.780.

Average daily membership attending (ADMa) is shown in Part II for each district as of June 30, 1987. ADMa is computed by dividing total days membership by the number of days that schools in the district were in session. ADMa figures beside county names are for students attending ESD-operated programs.

OREGON SCHOOL DISTRICT FINANCIAL ELECTIONS

1987

January 1988

OREGON SCHOOL DISTRICT
FINANCIAL ELECTIONS

1987

A major change in the way schools are financed was made in 1987. Voters approved a safety net proposal at the May election, enabling every school district to levy in the current year the amount of money levied for operations the previous year, without voter approval. This stopped the prolonged series of levy elections that had been occurring in the past in an attempt to get levy approval and prevent school closure.

The new law and constitutional amendments took effect on June 15, in time for the June 30 election. Two districts approved a levy outside the safety net in June, and one district chose to operate inside its tax base following defeat of a levy outside the safety net at the June election.

Fifty-five districts were left without levy approval following the June election. Fifteen of them chose to operate under the safety net, and three chose to operate inside their tax base, even though the safety net amount was higher. The remaining 38 districts held a levy election outside the safety net in August or September. Sixteen were successful, and the remainder were required to use the safety net.

Districts subject to the safety net need submit to the voters only the levy outside the safety net, not the amount outside the tax base. The difference this makes in the levy proposed is substantial. Levies proposed outside the safety net are so indicated so the reader can better evaluate the amounts proposed.

All districts have the amount of their tax base shown in the right-hand column. The 59 districts involved in the safety net have the safety net amount shown in the same column in parentheses. Some districts show both amounts.

Another change was the repeal of the net tax rate limit statute, made in time for the June election. Districts voting in March and May were subject to that law, and levies proposed under it are noted even though 1987-88 operating levies were not constrained by that statute.
